

October 2010

“If we want to move towards a low-polluting, sustainable society, we need to get consumers to think about their purchases.” David Suzuki

SUSTAINABLE ROOTS: FROM THE GROUND UP

Founded in 2009, New West Landscapes is a Bozeman based, **eco-friendly landscaping company who practices what we preach.**

From conception we intended to be an environmentally friendly **business that provides green jobs.** Most importantly our aim is to shift current landscaping practices to those that are less destructive to our planet and natural resources.

Our mission is visible in the vehicles we drive, our approach to landscape design, installation, and maintenance, the clothes on our backs, the equipment we use, our business practices, our business use of clean, renewable energy, and the charities to which we donate our time and expertise.
