Mr. Errol Schumann
New West Landscapes
Bozeman, MT

Dear Errol;

Thank you for an excellent project completed with creativity & enthusiasm — and on time!

In addition to its focus on being truly 'eco-friendly,' New West's pricing was fair and affordable, with details and options clearly delineated.

Additionally, I appreciated the clear communication shown throughout the endeavor. *Natural Remodeling for the Not-So-Green House* states that choosing a contractor with whom you can communicate well is of utmost importance. I found your communication skills to be outstanding, both in person and, especially, in written follow up.

I highly recommend your services to prospective landscapers, and refer them to your excellent website. Please feel free to post this letter and / or share it with others.

I look forward to working with New West Landscapes in the future!

Sincerely,

Cynthia W. Gage
