To Whom It May Concern:

Re: Errol Schumman

Mr. Schumman came to our little town with a desire to help and a vision by utilizing his educational skills. He performed his architectural skills in executing his conceptual drawings on a plan for a Kayenta Veteran Memorial Park. He did some background reading on the Navajos and talked with local residents about his endeavor. At the last Town meeting, he presented his drawings to the Town Commissioners, I truly believe they were impressed. Despite the barriers of language, finances, a long way from home, and some opposition in-house, Mr. Schumman came through with a plan that the Town can use towards the fruition of a Veterans Memorial Park in Kayenta.

I, being a community member of Kayenta, am grateful that such talent came to us. The families of the local veterans will be truly remembered and honored.

Sincerely,

A handwritten signature in cursive script that reads "Lynne Donald".
