

Western
Sustainability
Exchange

August 7, 2009

To Whom It May Concern:

It is a pleasure for me to comment on the excellent work ethic, generous nature and reliability of Errol Schuman. I was introduced to him when he called to volunteer for Western Sustainability Exchange (WSE), where I am a Program Director. He chose this organization because our mission and programs align with his philosophies. And although Errol is a LEED Certified Sustainable Landscape Designer, he was more than willing to do the most menial of tasks to help out.

WSE hosted a Sustainable Living Expo in Billings, MT in May, where Errol's Sustainable Landscaping Workshop was one of the highest attended.

Errol subsequently volunteered his time to design a community garden with compost facilities and edible landscaping around WSE's office building. He spent a good deal of time and effort implementing the design and continues to maintain the project.

The expertise Errol has in sustainability and design, enhanced by his strong work ethic and willingness to do whatever it takes to get a job done, make him an excellent candidate for any position he seeks.

If I can provide additional information please don't hesitate to call.

Sincerely,

Annie Conley
